

STEREO Chorus

Introduction

CHR3 'ARTEC STEREO CHORUS' is designed to generate the Phase Shifted Stereo Chorus Output function from the Compact body. It uniquely applies the Direct-Bypass Function unlike these kinds of products.

When the output jack is connected with the stereo jack the stereo output can be obtained and with the Monaural Jack automatically you can get the Monaural output.

When in using the stereo jack if you step on the foot switch the 'TIP' can be switched to Chorus / Direct Bypass, 'RING' to Chorus / Buffered Bypass.

ARTEC STEREO CHORUS is the Analog Effect, designed to make the 70' Sound reproduced which the DSP is not used, but the Classical Original BBD. And the Manual Control Knob and the Feed Back Knob have been added in order to create the extraordinary sound comparing to the normal Chorus Effect.

This product can be one of your valuable gears because it is made of the robust Metal Case and the reliable Mechanical Metal Foot Switch.

ARTEC ANALOG DELAY will give the cool effect sound with perfect DIRECT BYPASS and NON FILTERED OUTPUT functions.

Features

Controls :

RATE : Speed control of Chorus modulation effect

DEPTH : Depth control of Chorus effect

MANUAL : Height Control of modulation width

FEEDBACK : Feedback of Chorus effect

Foot-SW : Mechanical push-on/push-off

Connections : Input, Output(Stereo) , DC Input

Power : Alkaline DC9V (006P) or External power supply (DC9V)

Body : Aluminium alloy case

Dimensions : 3.7(W) X 4.7(L) X 1.32(H) inches
94.2(W) X 120.46(L) X 33.67(H) mm

Dealer :

Important Safety Instructions

The Direct-Bypass function has a different Output Impedance when in Bypass and when in Active. Therefore when the Input Impedance of the connected part with the Output is low the sound level in the case of Bypass and in the case of Active can be unbalanced.

Warning

1. Do not leave this unit near fire.
2. Do not expose this unit to moisture.
3. Protect this unit from strong impact.

Caution
