

RESOVIBE FULL ANALOG SYSTEM

Introduction

RSV3 'ARTEC RESOVIBE' is a TREMOLO-VIBE EFFECTOR using the optical device to regenerate the Vintage Tremolo sound.

Besides it is designed to be able to add the Resonance and can create the unique sound of RESOVIBE. This type of effect can not be found easily from the other products, but only from the RESOVIBE.

The Sound to add the RESONANCE is designed to synchronize the signal of the LFO (LOW FREQUENCY OSCILLATOR), VCA (VOLTAGE CONTROLLED AMPLIFIER), and VCF (VOLTAGE CONTROLLED FILTER) simultaneously.

RESO-VIBE has a selection of the two Depths. The Optical Control Circuit of RESOVIBE does not have the Vibe-Noise unlike other products and it can be controlled stably from the LFO and VCA are isolated electrically.

When in little input it can change to Mute-Mode from the LOW-LEVEL-SENSOR and you can play without LFO noise.

This product can be one of your valuable gears because it is made of the robust Metal Case and the reliable Mechanical Metal Foot Switch.

ARTEC ANALOG DELAY will give the cool effect sound with perfect DIRECT BYPASS and NON FILTERED OUTPUT functions.

Features

Controls :

SPEED : Ratio control of tremolo

INTENSITY : Depth control of tremolo

MODE : select [VIBE], [RESO-LO] or [RESO-HI]

RANGE : Width control of 'RESO' effect

Foot-SW : Mechanical push-on/push-off

Connections : Input, Output, DC Input

Power : Alkaline DC9V (006P) or External power supply (DC9V)

Body : Aluminium alloy case

Dimensions : 3.7(W) X 4.7(L) X 1.32(H) inches
94.2(W) X 120.46(L) X 33.67(H) mm

Dealer :

Important Safety Instructions

The Direct-Bypass function has a different Output Impedance when in Bypass and when in Active. Therefore when the Input Impedance of the connected part with the Output is low the sound level in the case of Bypass and in the case of Active can be unbalanced.

Warning

1. Do not leave this unit near fire.
2. Do not expose this unit to moisture.
3. Protect this unit from strong impact.

Caution

1. Please use this unit with DC9V adaptor or 9V Alkaline battery.
2. If you don't use this pedal more than 1 month, Please take the battery out from the case. When you don't use this unit, please disconnect the guitar cable from the input jack on the pedal for long life battery.

This product has 1 year limited warranty from the date of purchase.
