

Specifications

- Battery: 9V **Alkaline** 6LR6I or 6F22
- DC power supply: 9V **Regulated**
- Power consumption: 3mA
- Contact capacity : 125V AC 6A, 250V AC 3A, 30V DC 4A
- Input impedance : 1Mohm
- Output impedance : 1kohm
- Dimension: 75.5 x 115.5 x 47.5 (mm)
- Weight: 260g (include battery)

Battery & Power

If use a battery, When the indicator goes blinking or no longer lights while an effect is on, it means that the battery is nearly dead and must be replaced. Also it means that the voltage of power supply is too low or disconnected if use a power supply system.

When use the pedal with batteries, Please use **ALKALINE** batteries to prevent leaking damage.

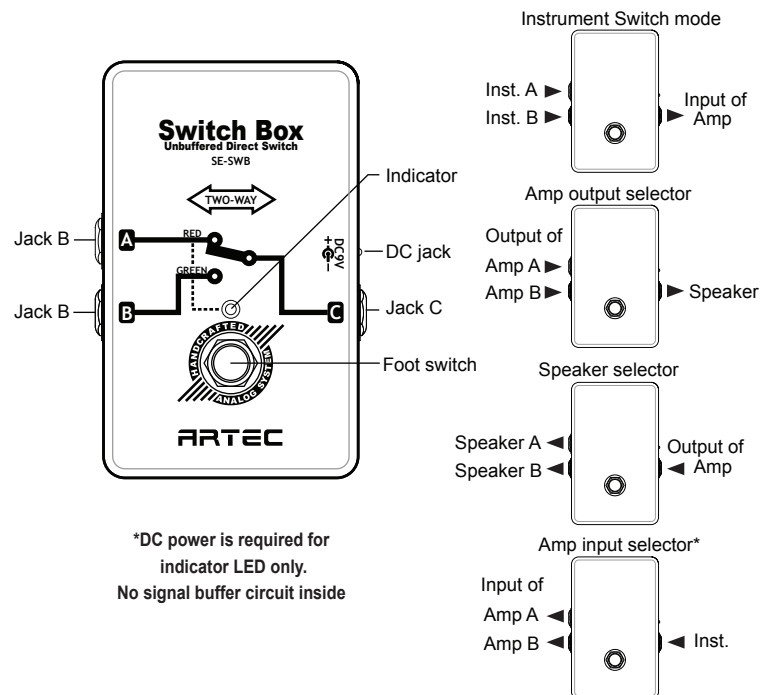

When use the pedal with a AC adaptor or DC power supply system, Please use DC9V **REGULATED** (100mA or higher) power supply. Using unregulated or switching power for IT system can cause of HUM NOISE of high frequency noise.

Limited Warranty

The products manufactured by ARTEC will be free from defect in workmanship and materials for a period of two years from proven date. For warranty, please contact the authorized dealer or shop in your region.

ARTEC SE-SWB

Unbuffered Direct Switch Box

*DC power is required for indicator LED only.
No signal buffer circuit inside

*In this mode, unselected channel can hear leaked signal
*Not recommend for high gain input
